

US CONCEPTS

Universal Arch Moulder

FAS-LX

- *very affordable*
- *very universal*
- *very HUSKY!*

General Information:

US Concepts Inc. introduces the FAS-LX Universal Arch Moulder for curved and straight mouldings. This heavy duty, affordable machine consistently cuts curved profiles by using a unique floating feed system that registers on the outside edge of the curved blank.

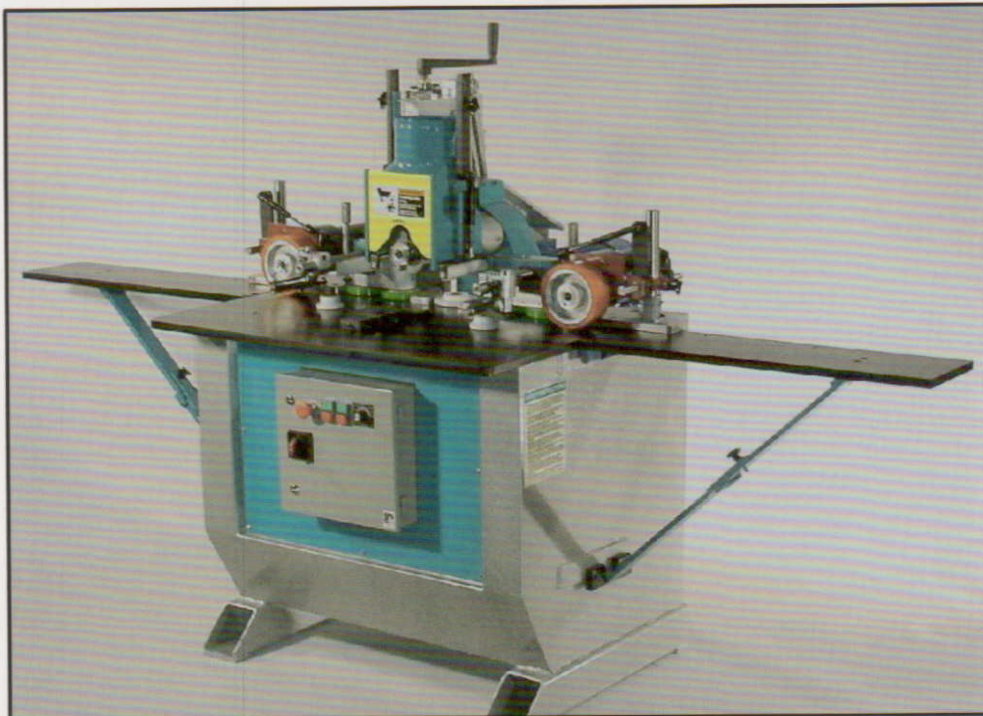

The FAS-LX is equipped with two axis spindle adjustment in order to easily and accurately match the cutter to the moulding profile. The spindle adjustments and floating feed make cutting circular, elliptical, and straight casing and crowns a breeze.

Standard Features:

Max. cutting width	6"
Max. cutting diameter	6 1/2"
Max. material height	4 1/4"
Main motor	7 1/2 HP
