flat & raised surface sanding

NEW COSTA SANDING CENTERS WITH LOGIC.A. CONTROL

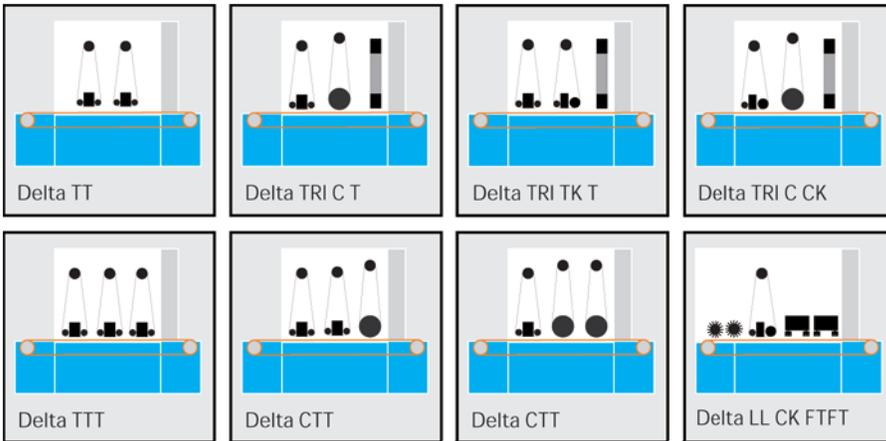

We are now introducing our new range of "All Purpose" Calibrating - Sanding machines engineered and equipped to satisfy all requirements of production.

LOGIC.A

Flexible Configurations

NEW COSTA LOGIC.A. CONTROL

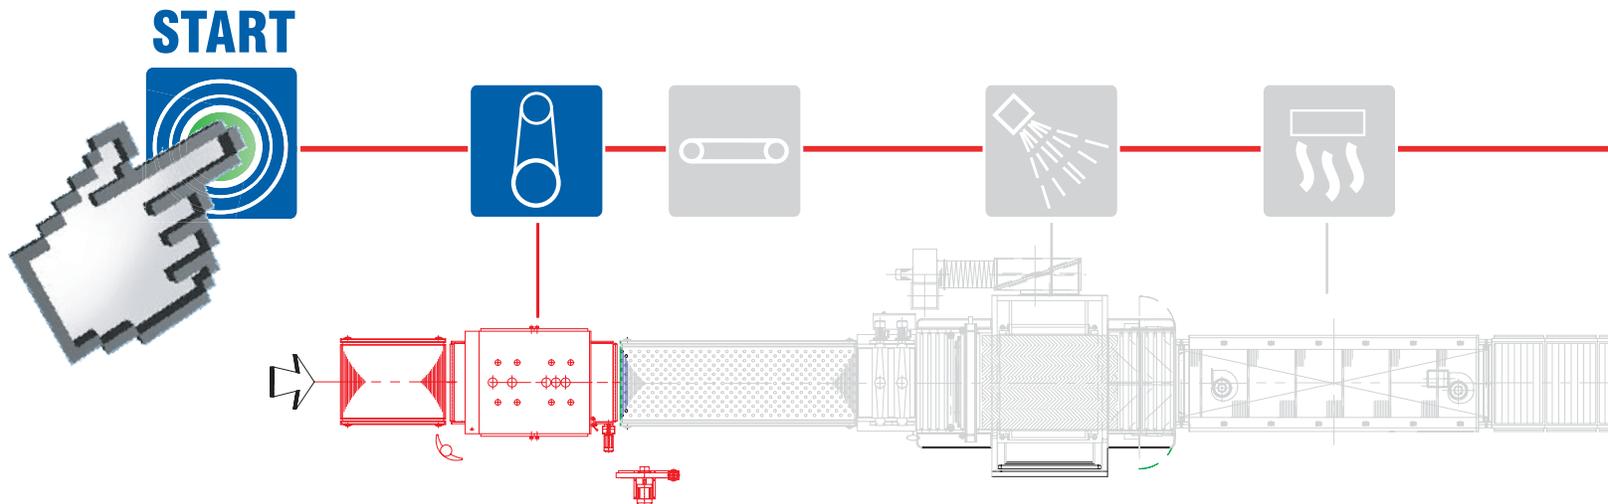

Logic.A. Puts a brain inside your Costa Sanding Machine making it easier for operators to focus on results.

Logic.A. is Costa's new software solution enabling operators to quickly setup automatic wide-belt sanding machines to reach the desired level of finish.

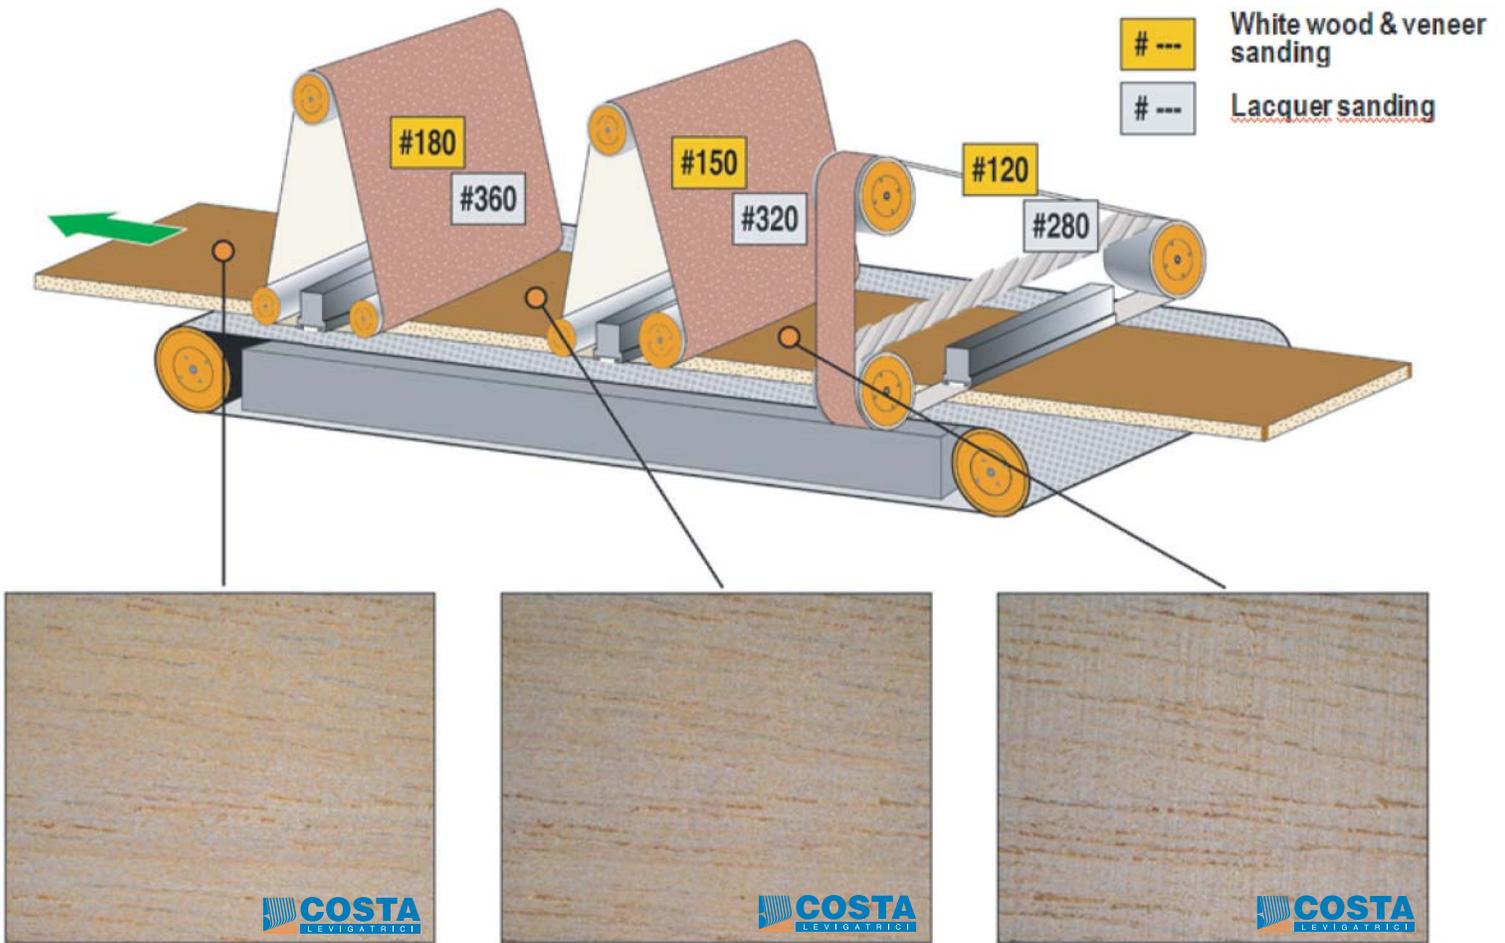

Logic.A. offers a user-friendly communication interface with our Windows-based PCM control, utilizing a question and answer environment, with intuitive push-buttons and drop-down menus activated through a touch-screen.

Logic.A. makes tasks such as switching from calibration

typical sanding + finishing line

applications

ongoing support

Costa provides support that is specifically tailored to each individual customer, leading to greater equipment performance, lower maintenance

Training

We offer custom-fit training programs for your machine operators and maintenance engineers, at your plant or in our testing facilities.

Preventive Maintenance

Our preventive maintenance program means that you will have our Costa technicians come to your facility to assess, train your maintenance personnel and work with your production personnel to achieve the highest productive and quality standards.

Field Service

The Costa service team is fully specialized in sanding-finishing applications. Our engineers are regionally located to quickly provide support to your organization.

Genuine Parts

We maintain an inventory stocked with a vast array of parts for your Costa equipment, from sub-assemblies to the smallest set screw.
