

**Denray offers a large variety of downdraft tables and dust booths to Accommodate nearly every application.**

### **Denray's Pushbutton Line**

Denray's cartridge filter line of downdraft tables come equipped with 80/20 cartridge filters, which clean with a 99.95% capture rate at 0.5 micron. Sizes are available from a small 34" X 44" table to the large 48" X 96" Model 9600B. Available options include mufflers, casters, and auto-timers.

### **Denray's Tube Filter Line**

Denray's tube filter line of downdraft tables come equipped with tube filters, which clean with a 99% capture rate at 1 micron. Tube filters work with finishes, fine sanding dust, and solid surface applications. Sizes available range from a small 28" X 48" table to the larger 48" X 96" Model 9600. Casters are standard on this model. Other options are mufflers, safety shield, and more.

### **Denray Dust Booths**

Denray offers two standard sizes of dust booths. Model 48120 comes equipped with a 5 HP motor developing a 9000 CFM, and Model 85120 comes equipped with a 7.5 HP motor developing a CFM of 12,500, for a maximum width of 14'. Widths over 14' use multiple power units. Dust booths work great for larger applications. Conveyor systems, or any item too large for a downdraft table.
